Helpful Camping Hints

Tents

If you use a plastic tarp under your tent, make sure you fold all the edges under the tent. That prevents any rain from catching in the edges and running under your tent.

Don't store food in your tent. It attracts all kinds of unwelcome pests.

NEVER USE CAMPSTOVES OR COMBUSTION HEATERS IN TENTS! This dangerous practice could be fatal!

Cooking

Dutch oven cooking is great! However, if you've never done it before, an event with a planned schedule may not be the best time to try it out for the first time. You can't always depend on cook times.

It's best not to plan a big cooking production for breakfast and lunch at events with day schedules, especially if your cooking crew is inexperienced. Keep your menus simple, easy to prepare and clean up, leaving you plenty of time to get to flag ceremonies, games, and other activities.

Personal Tips

Don't stay up all night! Don't let the kids stay up all night! Camping is more fun if you're well-rested.

Use that personal water bottle! Don't just carry it.. drink it!

Use that flashlight! There is nothing cool about going home with a sprained ankle or other injury.

Look at weather predictions and plan your clothing for the weather, but always bring some cool weather and rain gear – weather forecasters have been known to be wrong.
